Bug fixes since 9.6:

1. Over 150 bugs have been fixed. Please refer to the "readme.txt" file for more information on these bug fixes.

About CASAHL Technology

CASAHL Technology, Inc. is a leading independent provider of software and services for integration, extension, or migration of IBM/Lotus and Microsoft collaborative applications. Founded in 1993, CASAHL has more than 1,500 enterprise customers and a network of consulting partners around the world.

CASAHL software tools enable companies to use a collaborative application, such as SharePoint or Lotus Notes, as an integrated collaboration environment for all of a company's enterprise applications – including ERP, CRM, ECM, DBMS and file systems; other collaborative applications; and corporate portal sites. For example, CASAHL ecKnowledge®, the company's flagship product, allows users to bring enterprise content into SharePoint, collaborate with co-workers in the SharePoint environment, and send results back to the original environments -- with no programming, no XML, and no extra Web parts.

Designed for rapid application development and customization, CASAHL products – ecKnowledge® and Replic-Action™ – feature an integrated graphical development environment, reusable component parts, and robust cluster server technology. CASAHL products respect existing security infrastructures and require no changes to existing applications, networks, or firewalls. In addition to its award-winning software, CASAHL also offers training and consulting services for analysis, integration, coexistence and migration projects. For more information, visit our web site at <http://www.casahl.com>, email info@casahl.com, or phone 925-328-2828 (800-324-4284 USA only).

Free Evaluation and Webcast Seminar

To learn more about CASAHL products, contact us to sign up for a FREE webcast seminar. CASAHL consultants will customize the presentation to fit your business needs. You can also download a FREE evaluation copy of the software. During the evaluation period, CASAHL representatives are available to assist you with installation, configuration, and familiarization.
